Include your IPO Chart with your code in Eclipse IDE: We will discuss and demonstrate this in the computer lab.

IPO CHART

Program name:	Java	
INPUT	PROCESS	OUTPUT
Hint: What will the user input?	Hint: What is the program going to do with the input information?	Hint: What will the screen display after user input?
User enters their coin value which is under 1 dollar.	The program divided out the quarter by 25, the dimes by 10, the nickels by 5, and the pennies by 1, to get the smallest amount of coins possible.	The program displays the least amount of coins required, the amount of quarters, amount of dimes, amount of nickels, and amount of pennies.
