1. Click on File -> Make a copy

Include your IPO Chart with your code in Eclipse IDE: We will discuss and demonstrate this in the computer lab.

IPO CHART

Program name:	Java	
INPUT	PROCESS	OUTPUT
Hint: What will the user input?	Hint: What is the program going to do with the input information?	Hint: What will the screen display after user input?
User enters a 3 digit number disclosing the decimal place values.	The program separates the number into the 3 different digits by dividing by 100 10 and dividing by ten to find a remainder.	The program displays the answers in different line showing what digit is in the ones place, tens place, and hundreds place.
