

Instructions:

1. Click on File -> Make a copy

Include your IPO Chart with your code in Eclipse IDE: We will discuss and demonstrate this in the computer lab.

IPO CHART

Program name:	Java	
INPUT	PROCESS	OUTPUT
Hint: What will the user input?	Hint: What is the program going to do with the input information?	Hint: What will the screen display after user input?
User enters the number of copies to be printed.	The program determines which category of pricing the number of copies would be in, then it multiplies the number of copies by the price of that specific category to get the price.	The program displays the total price of the copies, and the price of each individual copy.
